PHOENIX PUBLIC WORKS BULK TRASH

Bulk trash collection is a quarterly service provided by the Phoenix Public Works Department as part of your residential trash and recycling service.

Bulk trash consists of materials that are too large to fit in the garbage or recycling container. Materials such as furniture, large appliances and large amounts of vegetation are often considered bulk trash.

GOT LOTS OF GREEN ORGANICS?

Then consider the Curbside Green Organics program offered to eligible residents.

The city of Phoenix is expanding the types of green organics landscapers and residents can divert.

Items now include: tree branches, limbs and stumps not to exceed four feet in length and 24 inches in diameter (when taken directly to the transfer stations), pyracantha, oleander and creosote.

The items are taken to the city's new state-of-the-art compost facility. With a City Services bill, showing solid waste service, Phoenix residents can bring up to one ton of material, including green organics, once per month to either the North Gateway or the 27th Avenue transfer stations for free. Curbside Green Organics customers can now put these materials in their tan container.

To find out if your neighborhood is eligible for this program visit phoenix.gov/publicworks and click on "Composting in Phoenix" where you will find information about this program and other waste diversion programs offered by the city. You also can call 602-262-6251 to find out if your household is eligible.
