

CHOICE®

WATER CONDITIONING AGENT

For Agricultural, Industrial, Turf and Ornamental Sprays

Principal Functioning Agents:

Salts of propionic, hydroxy carboxylic, Polyacrylic acids, phosphate ester and Ammonium sulfate	50%
Constituents ineffective as spray adjuvant.....	50%
TOTAL.....	100%

CA Reg No 34704-50027

WA Reg No 34704-04004

KEEP OUT OF REACH OF CHILDREN CAUTION

CAUTION: Harmful if swallowed, absorbed through skin or inhaled. Avoid breathing vapor or spray mist. Remove contaminated clothing and wash clothing before reuse. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Personal Protective Equipment: Wear Long-sleeved shirt and long pants, Socks, Shoes and Gloves.

First Aid: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

General: CHOICE water conditioner is formulated to aid the performance and mixing of spray solutions. Hard water and high pH can reduce the mixability and/or solubility of certain pesticides. Components of CHOICE sequester and chelate hard water ions. Ammonium sulfate and ammoniacal nitrogen from the salt components of CHOICE will aid in uptake of some herbicides by certain plant species. CHOICE can be used as an ammonium sulfate replacement. Choice may be used on a wide variety of agricultural crops or industrial and non-crop sites, such as, but not limited to: Forestry (site preparation and release), Industrial (storage areas, plant sites, and other similar areas including

governmental and private lands), Grasslands (including pastures, rangeland and fence rows), Rights-of-ways (utility, railroad and roadsides), Turf (golf courses, parks, sod farms, and lawns), and Ornamentals (container, field, greenhouse or nursery) and other turf, ornamental and landscaping sites.

Directions for Use: Fill spray tank ½ full of water and begin agitation. Add desired rate of CHOICE to water before adding pesticides. Add pesticides, as directed by label, while maintaining agitation. Always add CHOICE to water before adding pesticides. For tank mix compatibility concerns, conduct a jar test of the proposed mixture to ensure compatibility of all components. Mix components in the same ratio as the proposed tank mix. Not for aquatic use in Washington.

Suggested use rate:

2 to 6 pints per 100 gallons (1/3 to 1 fluid ounce per gallon)

Per Acre: ½ pint per acre has demonstrated performance equal to 2 pounds ammonium sulfate

Note: This product has demonstrated excellent plant safety; however, not all species of ornamentals have been tested. Before treating a large area, test on a small area and observe prior to full-scale application. Higher mineral content in water will require the higher rates of CHOICE.

CHOICE does not replace requirement for adding surfactant. If pesticide label requires the addition of a surfactant, add Activator 90, LI 700® or Liberate® at recommended rate.

Storage: Store in a cool, dry place. Store in original container. Keep tightly closed. Do not reuse empty container.

Disposal: Do not contaminate water, food or feed by storage or disposal. Wastes may be disposed of on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.

WARRANTY DISCLAIMER AND NOTICE

THE DIRECTIONS FOR USE OF THIS PRODUCT ARE BELIEVED TO BE ADEQUATE AND SHOULD BE FOLLOWED CAREFULLY. IT IS IMPOSSIBLE TO ELIMINATE ALL RISKS INHERENTLY ASSOCIATED WITH THE USE OF THIS PRODUCT. CROP INJURY, INEFFECTIVENESS, OR OTHER UNINTENDED CONSEQUENCES MAY RESULT DUE TO SUCH FACTORS AS WEATHER CONDITIONS, PRESENCE OR ABSENCE OF OTHER MATERIALS, OR THE MANNER OF USE OR APPLICATION, ALL OF WHICH ARE BEYOND THE CONTROL OF LOVELAND PRODUCTS, INC., THE MANUFACTURER OR SELLER.

THE PRODUCTS SOLD TO YOU ARE FURNISHED "AS IS" BY LOVELAND PRODUCTS, INC., THE MANUFACTURER OR SELLER, AND ARE SUBJECT ONLY TO THE MANUFACTURER'S WARRANTIES, IF ANY, WHICH APPEAR ON THE LABELS TO THE PRODUCTS SOLD TO YOU.
